

In the Specification:

Please replace the paragraph beginning at page 7, line 23, with the following paragraph:

The cam 24 preferably includes a generally cylindrical camshaft 82 having a first end portion 84 and a second end portion 86 (best shown in FIG. 5). A biasing surface 88 is disposed along a portion of a circumferential surface of the camshaft 82 in an axial direction, while the remainder of the circumferential surface of the camshaft is not overlapped by the biasing surface. The biasing surface 88 may be configured in any manner that allows a longitudinal axis 90 of the camshaft 82 to be eccentric to a longitudinal center 92 rotational axis of the ~~entire~~ cam 24.

In the Drawings:

Please approve the drawing changes as shown in red on the attached marked-up Annotated Sheet Showing Changes of sheet 5. A separate Submission of Formal Drawings incorporating the drawing change is also enclosed.
